

FURNITURE + DECOR CURATION PROCESS

At **Nestled Interiors**, each design project follows a thoughtful and collaborative process that ensures your home is both beautiful and functional. From the first conversation to final installation, every phase is tailored to your goals, budget, and lifestyle.

You'll also have access to your **Client Dashboard** — a personalized project hub where you can view plans, selections, invoices, and messages all in one place.

PHASE 1

Discovery Questionnaire & Consultation

The process begins with a Discovery Questionnaire to understand your space, lifestyle, and design preferences.

During our initial consultation (in-home or virtual), we'll continue the discussion of function, style, and budget expectations.

Your budget range helps guide selections and is referenced later in the proposal to align your vision with the appropriate investment level.

Deliverable: Defined goals, inspiration direction, and room priorities.

Design Time: 3-6 Hours

PHASE 2

Design Concepts & Furniture Layout

We develop a furniture layout and design concept tailored to your space and lifestyle.

Initial concept boards and furnishing ideas are shared via your Client Dashboard for feedback.

Deliverable: Concept presentation with layout and product direction.

Design Time: 10-20 Hours

PHASE
3

Selections, Sourcing & Proposal

Once initial concepts are approved, we refine product selections and pricing. A proposal outlines scope, estimated cost, and purchasing options. Budget is referenced throughout to ensure alignment. After approval, both the proposal and contract are signed via your Client Dashboard.

Specific furnishings, artwork, rugs, and décor will be finalized through a collaborative selection process, with the option for multiple rounds of design revisions to ensure the final combination perfectly reflects your vision and style.

Deliverable: Finalized design board and purchasing plan.

Design Time: 15-30 Hours

PHASE
4

Procurement, Delivery & Implementation

We coordinate orders, delivery, and on-site styling.

Budget and timeline are continually referenced to keep the project on track and transparent.

Deliverable: Fully furnished and styled space ready for use.

Design Time: 10-25 Hours

PHASE
5

Implementation & Installation

A final walkthrough or virtual review confirms satisfaction and completion.

Deliverable: Completed space and any necessary warranties and care instructions.

Design Time: 5-15 Hours
